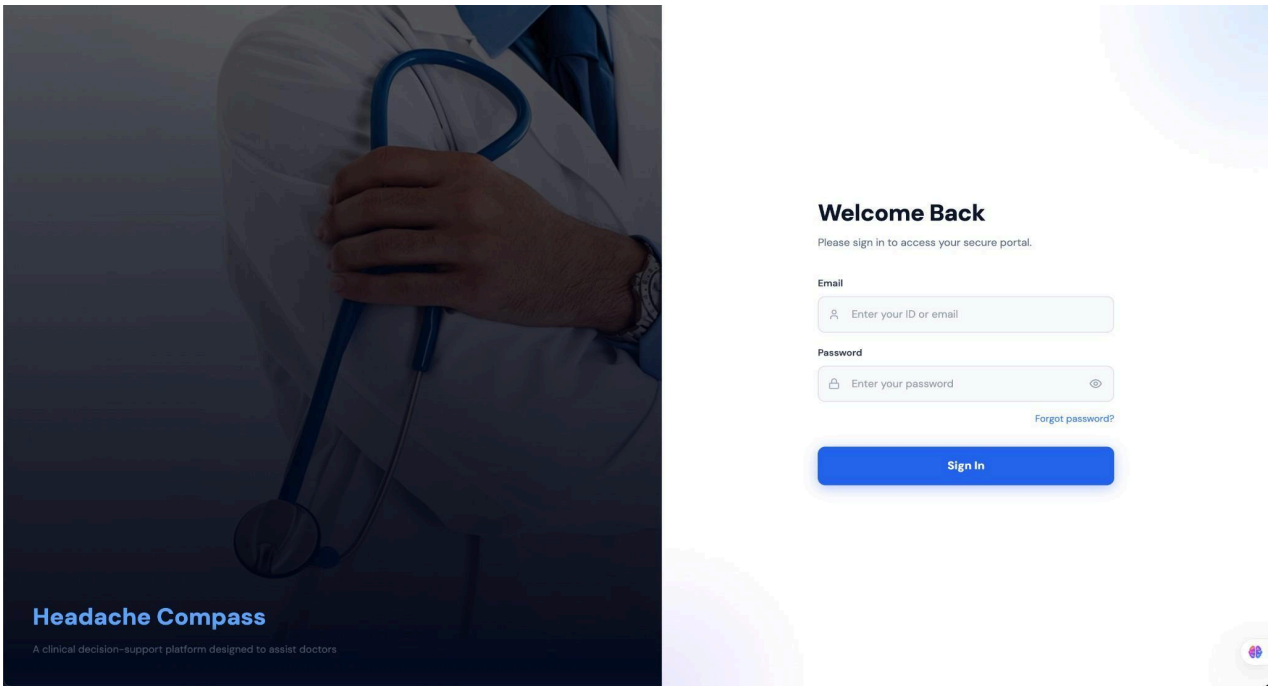
Headache Compass

Clinical Platform – Doctor User Guide



Headache Compass is a secure clinical platform designed to assist doctors in managing headache assessments, maintaining structured patient records, and documenting clinical evaluations efficiently. This guide provides step by step instructions for accessing and using the doctor portal.

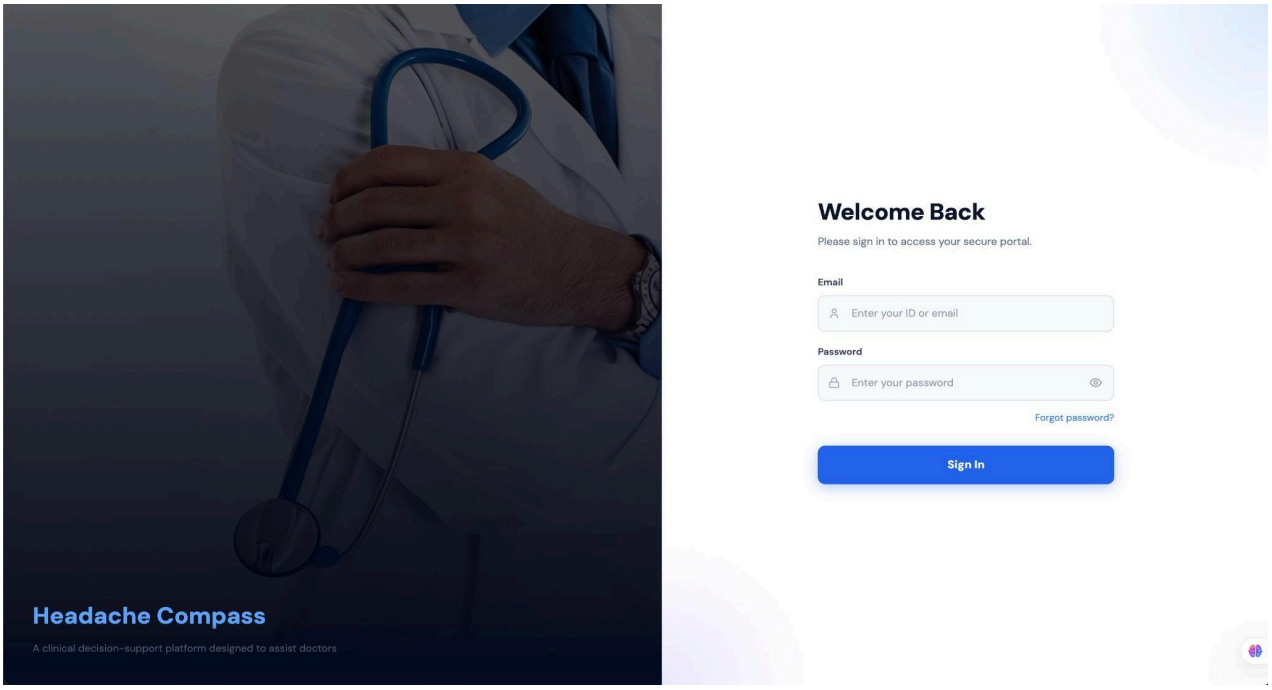
Portal Access: www.drprasannavani.com/login

Platform Lead & Support Information:

Dr. Prasanna Vani V,
M.D. , F.I.P.M. , E.D.P.M (Part 1), C.C.E.P..C. Consultant in Pain Medicine, JP Neuro Spine Hospital and Pain Management Centre, Krishnagiri.
Contact- 8754870054
Email- drprasannavaniv@gmail.com

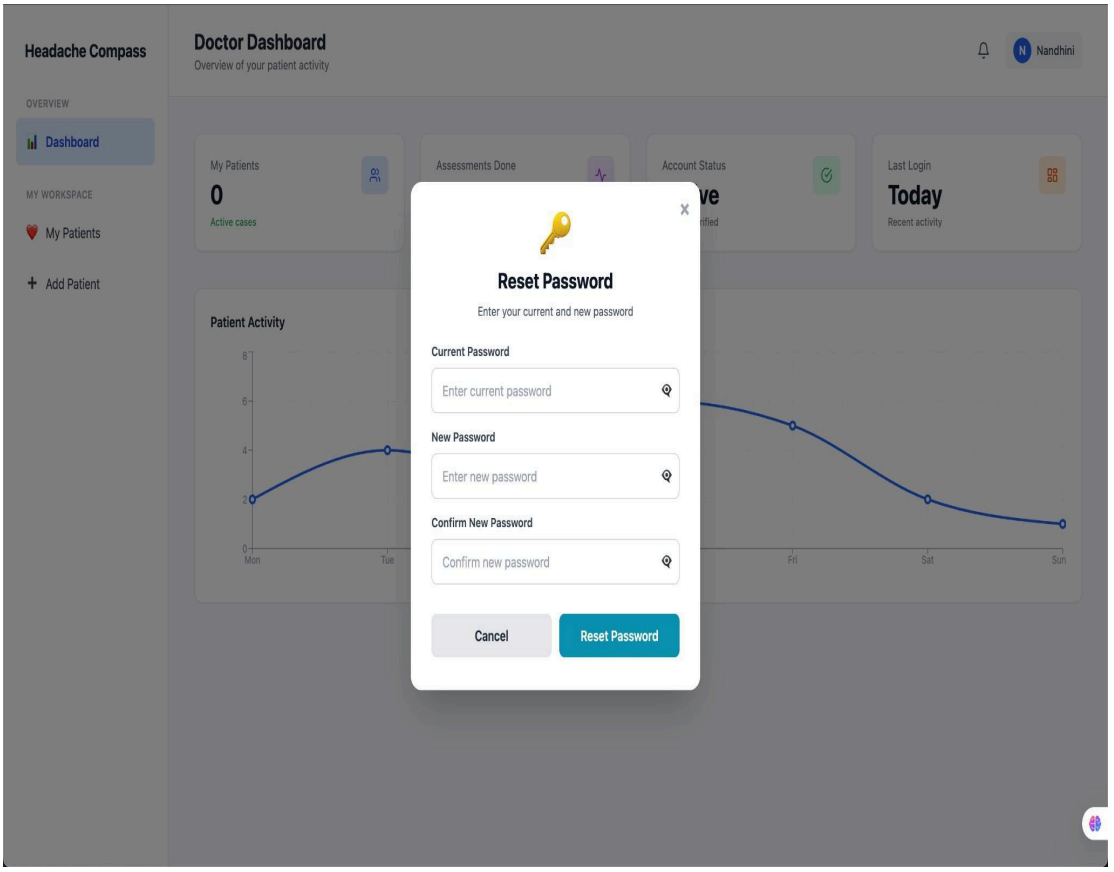
This document will guide you through logging into the system, managing patients, performing assessments, reviewing diagnosis history, and securely maintaining patient information

1. Login to the Platform



- Doctors will receive a username and temporary password via their registered email address.
- Enter the email/username in the Email field.
- Enter the temporary password provided in the email.
- Click the Sign In button to access the system.
- If you forget your password later, you can use the 'Forgot password?' option.

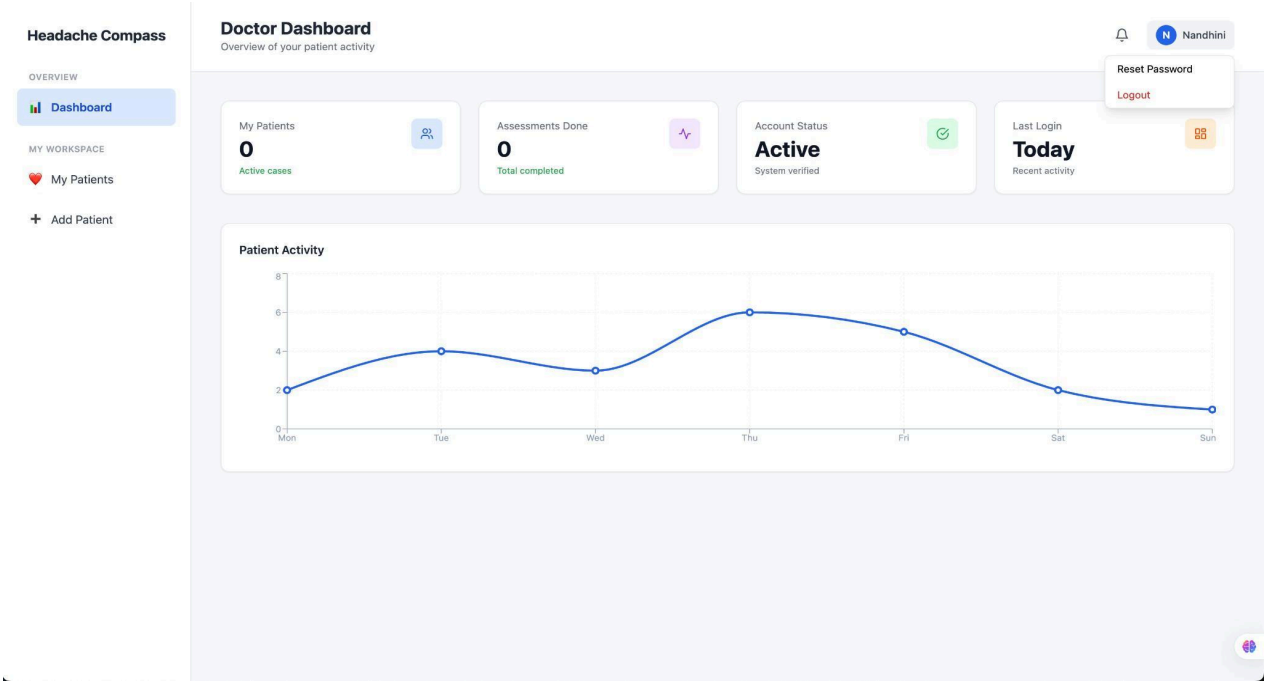
2. Reset Your Password (First Login)



- After logging in for the first time, doctors should immediately change the password.
- Click on the profile icon at the top right corner.
- Select Reset Password.
- Enter your current password.
- Enter a new secure password.
- Confirm the new password and click Reset Password.

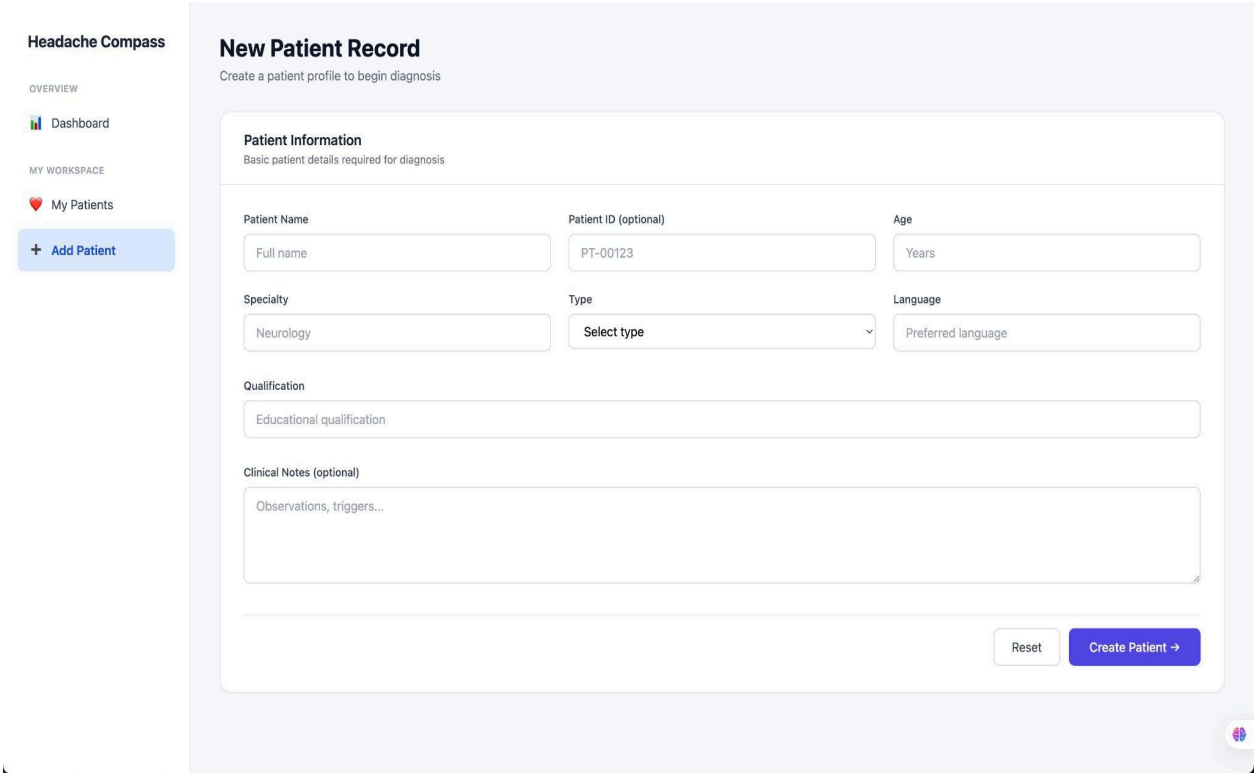
Important: After resetting the password, always use your new password for future logins.

3. Doctor Dashboard Overview



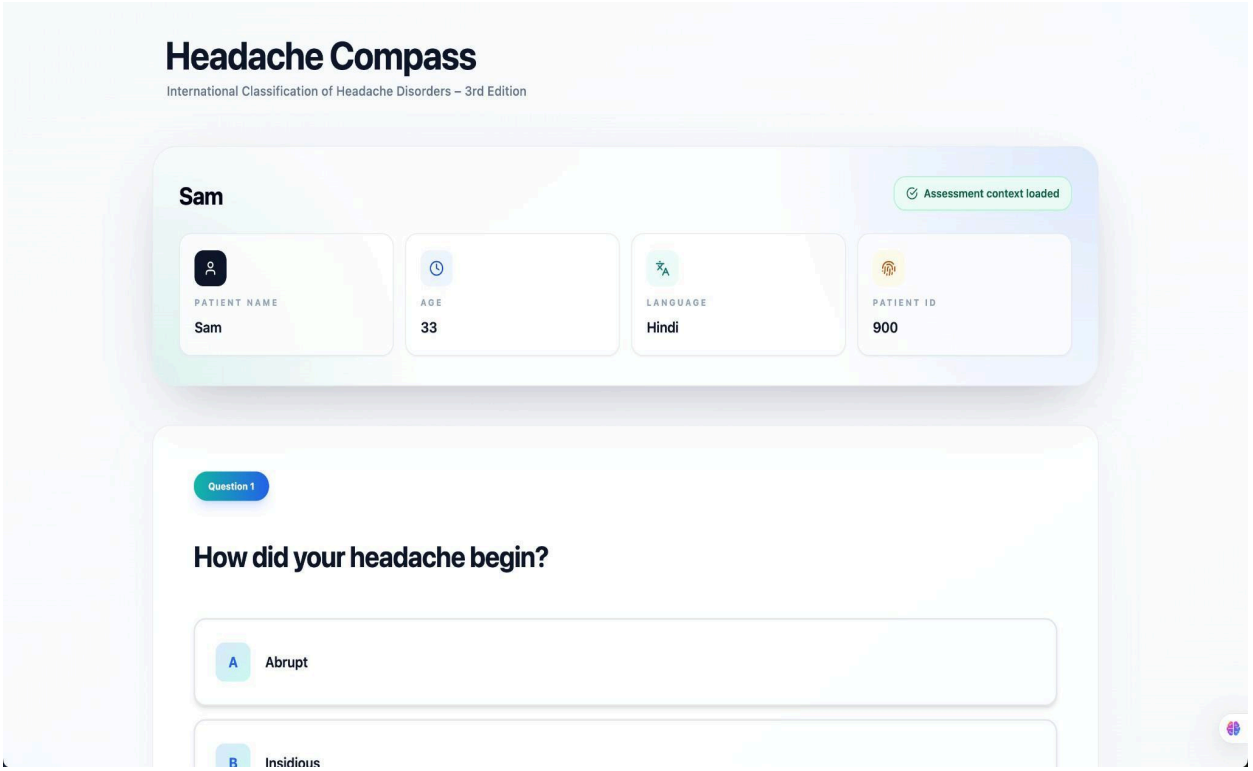
- The dashboard provides a quick overview of your patient activity.
- My Patients – shows the total number of active patient records.
- Assessments Done – shows the number of completed headache assessments.
- Account Status – indicates whether your system account is active.
- Last Login – shows your most recent login activity.
- The Patient Activity graph displays trends of patient activity across the week.

4. Add a New Patient



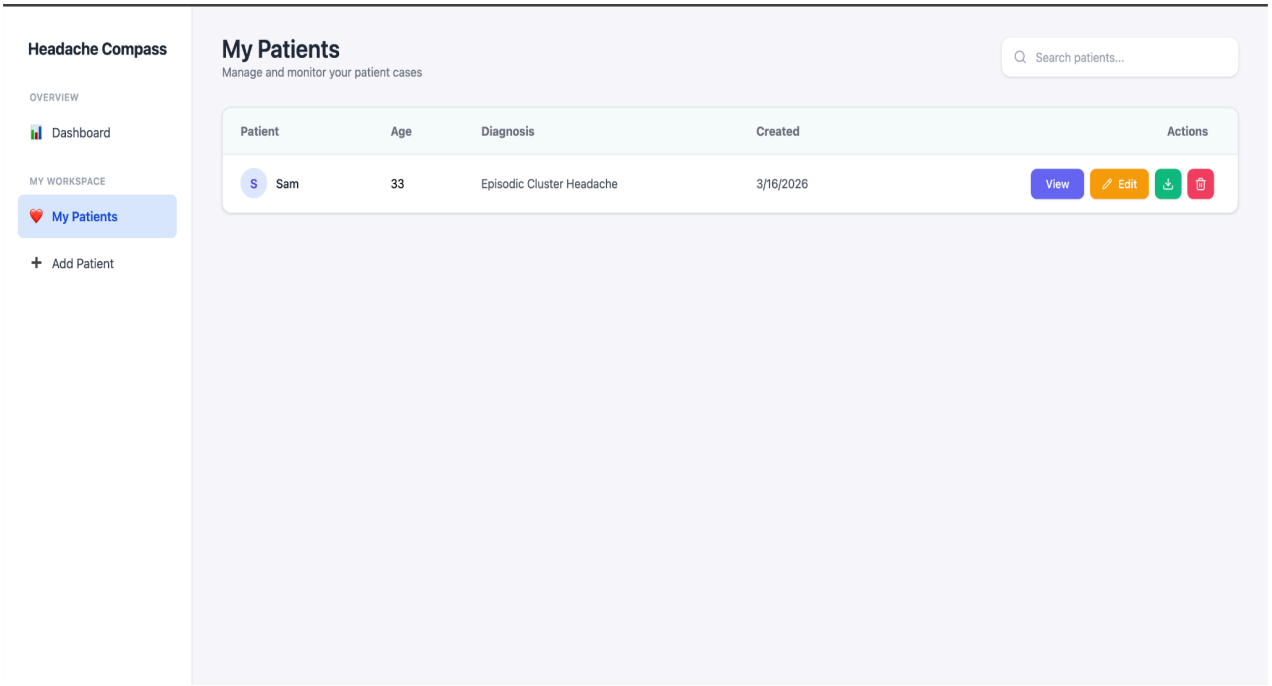
- Click Add Patient from the left sidebar.
- Enter the required patient details carefully.
- Patient Name – Mandatory.
- Age – Mandatory.
- Specialty – Mandatory.
- Type – Mandatory.
- Language – Mandatory.
- Patient ID – Optional.
- Clinical Notes – Optional.
- Once all required fields are completed, click Create Patient.

5. Patient Assessment



- After creating a patient, the system automatically routes you to the assessment page.
- Answer each clinical question carefully based on the patient's symptoms.
- Continue answering all assessment questions until completion.
- You must upload the Proof of Patient / Registration Screenshot.
- You must answer the confirmation question: 'Does the diagnosis match with your clinical assessment?'
- The Submit button will only be enabled after all required fields are completed.

6. Managing Patient Records



- Doctors can manage patient records in the My Patients section.
- View – View the complete patient history and assessment.
- Edit – Edit patient personal details if entered incorrectly.
- If an assessment mistake occurs, the assessment must be retaken.
- Download – Download the patient record as a PDF.
- Delete – Remove a patient record if necessary.

Note: Headache Compass helps doctors systematically record patient data, conduct structured headache assessments, and maintain organized patient records for better clinical decision making.
